

ERRATUM: Comprehensive *CFTR* gene analysis of the French cystic fibrosis screened newborn cohort: implications for diagnosis, genetic counseling, and mutation-specific therapy

Marie Pierre Audrézet, PhD, Anne Munck, MD, Virginie Scotet, PhD, Mireille Claustres, MD, PhD, Michel Roussey, MD, Dominique Delmas, MA, Claude Férec, MD, PhD and Marie Desgeorges, PharmD
Genet Med advance online publication, August 14, 2014; doi:[10.1038/gim.2014.113](https://doi.org/10.1038/gim.2014.113)

In the version of this article published online, in the first two sentences of the abstract, a phrase was mistakenly duplicated. The correct text is: "Newborn screening (NBS) for cystic fibrosis (CF) was implemented throughout France in 2002. It involves a four-tiered procedure: immunoreactive trypsin (IRT)/DNA/IRT/sweat test."

CORRIGENDUM: A clinical appraisal of different Z-score equations for aortic root assessment in the diagnostic evaluation of Marfan syndrome

Roland R.J. van Kimmenade, MD, PhD, Marlies Kempers, MD, PhD, Menko-Jan de Boer, MD, PhD, Bart L. Loeys, MD, PhD and Janneke Timmermans, MD

In the Materials and Methods section, under "Calculations and equations," the method of calculating the Z3 score was presented incorrectly. "H × 0.10" should have been "H × 0.010."
