ON THE COVER

Abstract Plains Indian Tipi

Kevin Red Star

Honored throughout Native America for the authenticity of his art, Kevin Red Star grew up on a Crow reservation in Montana. Part of the inaugural class of the Institute of American Indian Arts in Santa Fe in the mid-60s, he continues to create an indelible expression of his tribal legacy. Indexed by Index Medicus, EMBASE—the Excerpta Medica database, Elsevier BIOBASE (Current Awareness in Biological Sciences), Science Citation Index Expanded, ISI Alerting Services, Biotechnology Citation Index, and Current Contents (Life Sciences).

ACMG STATEMENTS

- 100017** Points to consider in the practice of postmortem genetic testing: A statement of the American College of Medical Genetics and Genomics (ACMG)
Joshua L. Deignan, Mauricio De Castro, Vanessa L. Horner, Tami Johnston, Daniela Macaya, Joseph J. Maleszewski, Honey V. Reddi, Marwan K. Tayeh and on behalf of the ACMG Laboratory Quality Assurance Committee
- 100803** The clinical application of polygenic risk scores: A points to consider statement of the American College of Medical Genetics and Genomics (ACMG)
Aya Abu-El-Haija, Honey V. Reddi, Hannah Wand, Nancy C. Rose, Mari Mori, Emily Qian, Michael F. Murray and on behalf of the ACMG Professional Practice and Guidelines Committee
- 100804** Laboratory perspectives in the development of polygenic risk scores for disease: A points to consider statement of the American College of Medical Genetics and Genomics (ACMG)
Honey V. Reddi, Hannah Wand, Birgit Funke, Michael T. Zimmermann, Matthew S. Lebo, Emily Qian, Brian H. Shirts, Ying S. Zou, Bing M. Zhang, Nancy C. Rose, Aya Abu-El-Haija and on behalf of the ACMG Laboratory Quality Assurance Committee

COMMENTARY

- 100801** Practical considerations for reinterpretation of individual genetic variants
Paul S. Appelbaum, Sara M. Berger, Elly Brokamp, Henry Shelton Brown, Wylie Burke, Ellen Wright Clayton, Barbara J. Evans, Rizwan Hamid, Gary E. Marchant, Donna M. Martin, Bridget C. O'Connor, José A. Pagán, Erik Parens, Jessica L. Roberts, John Rowe, John Schneider, Karolynn Siegel, David L. Veenstra and Wendy K. Chung

ARTICLES

- 100798** Pathogenic variants in *CLXN* encoding the outer dynein arm docking-associated calcium-binding protein calaxin cause primary ciliary dyskinesia
Rim Hjeij, Isabella Aprea, Marco Poeta, Tabea Nöthe-Menchen, Diana Bracht, Johanna Raidt, Barbara I. Honecker, Gerard W. Dougherty, Heike Olbrich, Oliver Schwartz, Ulrike Keller, Harald Nüsse, Karin E.M. Diderich, Christian Vogelberg, Francesca Santamaria and Heymut Omran

CONTENTS

Volume 25 | Number 5 | May 2023

- 100020** Insurance denials and diagnostic rates in a pediatric genomic research cohort
Tricia N. Zion, Courtney D. Berrios, Ana S.A. Cohen, Lauren Bartik, Laura A. Cross, Kendra L. Engleman, Emily A. Fleming, Randi N. Gadea, Susan S. Hughes, Janda L. Jenkins, Jennifer Kussmann, Caitlin Lawson, Caitlin Schwager, Meghan E. Strenk, Holly Welsh, Eric T. Rush, Shivarajan M. Amudhavalli, Bonnie R. Sullivan, Dihong Zhou, Jennifer L. Gannon, Bryce A. Heese, Riley Moore, Emelia Boillat, Rebecca L. Biswell, Daniel A. Louiselle, Laura M.B. Puckett, Shanna Beyer, Shelby H. Neal, Victoria Sierant, Macy McBeth, Bradley Belden, Adam M. Walter, Margaret Gibson, Warren A. Cheung, Jeffrey J. Johnston, Isabelle Thiffault, Emily G. Farrow, Elin Grundberg and Tomi Pastinen
- 100802** Implementing digital systems to facilitate genetic testing for hereditary cancer syndromes: An observational study of 4 clinical workflows
Catharine Wang, Haibo Lu, Deborah J. Bowen and Ziming Xuan
- 100813** Economic evaluation of population-based, expanded reproductive carrier screening for genetic diseases in Australia
Deborah Schofield, Evelyn Lee, Jayamala Parmar, Simon Kelly, Matthew Hobbs, Nigel Laing, Jan Mumford and Rupendra Shrestha
- 100818** Cascade testing after exome sequencing: Retrospective analysis of linked family data at 2 US laboratories
Julie Stefka, Haley Streff, Pengfei Liu, Meghan Towne and Hadley Stevens Smith
- 100819** How do members of the public expect to use variants of uncertain significance in their health care? A population-based survey
Chloe Mighton, Marc Clausen, Salma Shickh, Nancy N. Baxter, Adena Scheer, Agnes Sebastian, Sarah M. Muir, Theresa H.M. Kim, Emily Glogowski, Kasmintan A. Schrader, Dean A. Regier, Raymond H. Kim, Jordan Lerner-Ellis, Ahmed M. Bayoumi, Kevin E. Thorpe and Yvonne Bombard
- EDUCATION REPORT**
- 100814** The effect of genetic education on the referral of patients to genetic evaluation: Findings from a national survey of nephrologists
Hila Milo Rasouly, Olivia Balderes, Maddalena Marasa, Hilda Fernandez, Marissa Lipton, Fangming Lin, Ali G. Gharavi and Maya Sabatello
- CORRECTION**
- 100799** Biallelic variants in *ADAMTS15* cause a novel form of distal arthrogyrosis
Felix Boschann, Ozgur Cogulu, Davut Pehlivan, Saranya Balachandran, Pedro Vallecillo-Garcia, Christopher M. Grochowski, Nils R. Hansmeier, Zeynep H. Coban Akdemir, Cesar A. Prada-Medina, Ayca Aykut, Björn Fischer-Zirnsak, Simon Badura, Burak Durmaz, Ferda Ozkinay, René Hägerling, Jennifer E. Posey, Sigmar Stricker, Gabriele Gillessen-Kaesbach, Malte Spielmann, Denise Horn, Knut Brockmann, James R. Lupski, Uwe Kornak and Julia Schmidt

MISSION STATEMENT

Genetics in Medicine is a monthly journal committed to the timely publication of:

- Original reports which enhance the knowledge and practice of medical genetics
- Strategies and innovative approaches to the education of medical providers at all levels in the realm of genetics

As an official journal of the American College of Medical Genetics and Genomics (ACMG), the journal will:

- Provide a forum for discussion, debate and innovation concerning the changing and expanding role of medical genetics within the broader context of medicine
- Fulfill our responsibility to the College membership through the publication of guidelines, policy statements and other information that enhances the practice and understanding of medical genetics

Finally, as genetics becomes increasingly important in the wider medical arena, we will be an accessible and authoritative resource for the dissemination of medical genetic knowledge to providers outside of the genetics community through appropriate reviews, discussions, recommendations and guidelines.
